Contents

1 Basic Principles of Deep Brain Stimulation .......................... 1
   F. L. H. Gielen and G. C. Molnar

2 Neural Circuits Affected by Deep Brain Stimulation
   for the Treatment of Psychiatric Disorders ..................... 11
   Suzanne N. Haber and Benjamin D. Greenberg

3 Mechanisms of Action of Deep Brain Stimulation
   for the Treatment of Psychiatric Disorders ..................... 21
   J. Luis Lujan and Cameron C. McIntyre

4 Deep Brain Stimulation in the Ventral Capsule/Ventral Striatum
   for the Treatment of Obsessive–Compulsive Disorder:
   Role of the Bed Nucleus of the Stria Terminalis ............... 35
   Loes Gabriëls and Bart Nuttin

5 Deep Brain Stimulation in Obsessive–Compulsive Disorder
   Targeted at the Nucleus Accumbens .............................. 43
   Pelle P. de Koning, Pepijn van den Munckhof, Martijn Figee,
   Rick Schuurman and Damiaan Denys

6 What is the Role of the Subthalamic Nucleus
   in Obsessive–Compulsive Disorder? Elements and Insights
   from Deep Brain Stimulation Studies ............................ 53
   William I. A. Haynes and Luc Mallet

7 Obsessive–Compulsive Disorders in Animals ...................... 61
   Christine Winter
8 Subcallosal Cingulate Cortex Deep Brain Stimulation for the Treatment of Refractory Mood Disorders: Evidence and Challenges ........................................... 71
Peter Giacobbe, Nir Lipsman and Andres M. Lozano

9 Deep Brain Stimulation of the Human Reward System as a Putative Treatment for Refractory Major Depression ................. 81
T. E. Schlaepfer, V. A. Coenen and B. H. Bewernick

10 Depression in Humans: The Ventral Capsule/Ventral Striatum .................................................................................. 95
Mayur Pandya, Andre Machado and Donald Malone

11 Deep Brain Stimulation in Animal Models of Depression ............. 103
Brian W. Scott, José N. Nobrega and Clement Hamani

12 Deep Brain Stimulation in Tourette Syndrome .......................... 113
L. Ackermans, I. Neuner, J. Kuhn and V. Visser-Vandewalle

13 Surgical Treatments for Drug Addictions in Humans................. 131
Bomin Sun and Wei Liu

14 Manipulating Addictive Behaviour in Animal Models ............... 141
Rolinka M. C. Schippers, Tommy Pattij and Taco J. De Vries

15 Neuropsychiatric Side Effects of Deep Brain Stimulation in Parkinson's Disease ......................................................... 159
Christine Daniels and Jens Volkmann

16 Psychiatric Aspects of Parkinson's Disease in Animal Models of Deep Brain Stimulation of the Subthalamic Nucleus ............ 175

17 Scientific Recordings in Deep Brain Stimulation ......................... 183
Michael X. Cohen

18 Neurotransmitter Release During Deep Brain Stimulation .......... 193
Osama A. Abulseoud, Emily J. Knight and Kendall H. Lee

19 The Potential Role of Nonneuronal Cells in the Deep Brain Stimulation Mechanism ..................................................... 205
Vinata Vedam-Mai, Michael S. Okun and Elly M. Hol
20 Animal Studies in Deep Brain Stimulation Research ........................................... 217
Matthijs G. P. Feenstra and Damiaan Denys

21 Neuroimaging Deep Brain Stimulation in Psychiatric Disorders ............................................. 225
Martijn Figee, Pepijn van den Munckhof, Rick Schuurman and Damiaan Denys

22 Optogenetic Strategies for the Treatment of Neuropsychiatric Disorders: Circuit-Function Analysis and Clinical Implications ............................................. 241
Daniel L. Albaugh and Garret D. Stuber

23 Next-Generation Electrodes for Steering Brain Stimulation ............................................. 253
H. C. F. Martens, M. M. J. Decré and E. Toader

24 Future Applications: Nanotechniques ............................................. 263
Russell J. Andrews, Jessica E. Koehne and Meyya Meyyappan

Emily Bell and Eric Racine

26 History of “Psychiatric” Deep Brain Stimulation: A Critical Appraisal ............................................. 289
Marwan I. Hariz

Index ............................................. 295
