Table of contents

Preface	V
Vorwort.....	VII
List of figures.....	XV
List of tables.....	XVI
Abbreviations.....	XVII
General introduction	1
Allgemeine Einführung.....	3
Part I: Public engagement for infrastructure provision:	
Case studies on successful FTTH roll-out strategies	5
1 Introduction	7
1.1 Area of research.....	8
1.2 Methodology and structure.....	10
2 Relevance of broadband	15
2.1 Defining broadband.....	15
2.2 How much broadband is enough?	16
2.3 Driver for economic growth and social development	17
2.4 The impact of the lack of broadband on rural areas.....	20
2.5 The lack of broadband in rural areas	22
3 The qualification of broadband access technologies.....	27
3.1 Wireline technologies.....	27
3.2 Wireless technologies.....	30
3.3 Selecting FTTX technologies.....	33
3.4 FTTH architectures.....	37
3.5 FTTX roll-out models	41

4	The mechanisms of infrastructure enforcement	45
4.1	Law	47
4.2	Competition	49
4.3	Public engagement: Subsidies	51
4.4	Public engagement: Hybrid solutions	52
5	The effectiveness of infrastructure delivery models	57
5.1	The definition of effective delivery	57
5.2	The framework for influence factors and measurement	58
6	Explorative case studies on FTTH infrastructure roll-out projects	61
6.1	The selection of case studies	61
6.2	Case study: Stadtwerke Schwerte, Germany	63
6.3	Case study: OnsNet Nuenen, The Netherlands	65
6.4	Case study: Diamond Net, USA	68
6.5	Case study: National Broadband Network, Australia	71
7	The shortcomings of the case studies	77
7.1	The evaluation of case studies	77
7.2	The advantages of public-private partnerships for FTTHs	81
7.3	The disadvantages of public-private partnerships in FTTHs	82
7.4	The impact on national broadband programs	87
8	Conclusions and recommendations	93
	Part II: Legal applicability analysis	99
9	Introduction	101
	Einführung	105
10	Problemstellung	109
10.1	Bedeutung der Breitbandversorgung für den ländlichen Raum	109
10.2	Gegenstand des Gutachtens	111
11	Kommunale Breitband-Infrastruktur	115

11.1	Bau und Betrieb der Infrastruktur durch die Kommune oder Stadtwerke	115
11.2	Verkauf und Vermietung der Telekommunikationsinfrastruktur	144
11.3	Ergebnisse des zweiten Teils	148
12	Rahmenbedingungen von Kooperationen	151
12.1	Nachfragebündelung	151
12.2	Übernahme von Tiefbaumaßnahmen	168
12.3	Leerrohre	179
12.4	Wettbewerbsverbotsklauseln	186
12.5	Bürgschaften und Investitionszuschüsse	189
13	Conclusions of legal considerations	195
	Zusammenfassung der rechtlichen Analyse	201
	Summary and overall conclusions	207
	Zusammenfassung und generelle Handlungsempfehlung	209
	Appendix	211
	References	221
