1. Introduction	15
2. How informational efficient is the Saudi Stock Exchange?	19
2.1 Literature review	19
2.2 Data and methodology	24
2.2.1 Data	25
2.2.2 Methodology	27
2.2.2.1 Augmented Dickey-Fuller and Phillips-Perron test	27
2.2.2.2 Durbin-Watson test	31
2.2.2.3 Autocorrelation function test and Ljung-Box Q test	33
2.2.2.4 Variance ratio test	35
2.2.2.5 Pearson product-moment correlation coefficient for serial correlation and Spearman rank correlation	39
2.2.2.6 Wald-Wolfowitz runs test	42
2.2.2.7 Runs test via Shannon entropy	44
2.2.2.8 Rescaled range statistic via Hurst exponent and Lo modified	47
2.3 Results	50
2.4 Conclusion	63
3. How successful are active portfolio investment strategies for the Saudi Stock Exchange?	65
3.1 Literature review	66
3.2 Data and methodology	68

3.2.1	Data	69
3.2.2	Methodology	70
3.2.2.1	Investment strategies	70
3.2.2.1.1	Minimum variance optimization	71
3.2.2.1.2	Sharpe ratio optimization	71
3.2.2.1.3	Bayes-Stein optimization	72
3.2.2.1.4	Ledoit-Wolf optimization	73
3.2.2.1.5	Rebalanced equally weighted portfolio	74
3.2.2.1.6	Equal-risk-contribution portfolio	75
3.2.2.1.7	Most diversified portfolio	76
3.2.2.1.8	Inverse volatility portfolio	76
3.2.2.1.9	Diversified-risk-parity portfolio	77
3.2.2.2	Measurements	78
3.2.2.2.1	Mean return	79
3.2.2.2.2	Variance	82
3.2.2.2.3	Sharpe ratio	85
3.2.2.2.4	Value at risk	89
3.2.2.2.5	Certainty equivalent return	91
3.2.2.2.6	Diversification ratio	94
3.2.2.2.7	Turnover	97
3.3	Results	99
3.4	Conclusion	106

4. How dependent are Saudi Arabia's economic sectors on oil price?

		109
4.1	Literature review	109
4.2	Data and methodology	112
4.2.1	Data	112
4.2.2	Methodology	114
4.2.2.1	Correlation	115
4.2.2.2	Cointegration	115
4.3	Results	119
4.4	Conclusion	122

5. Concluding remarks	125
